(54) Title: DEHUMIDIFYING OF AIR WITHIN SWITCH CABINET FOR A WIND TURBINE BY MEANS OF PELTIER ELEMENT

(57) **Abstract:** The invention relates to a switch cabinet for a wind turbine with at least one circuit element accommodated in said switch cabinet and a drying arrangement for preventing water depositions onto the at least one circuit element, wherein the drying arrangement includes a device for generating an air flow in a region of the at least one circuit element, the device including a peltier element.
